Quantity Shipped

Quantity shipped should be less than the consented quantity for the waste stream. Waste streams with quantity shipped not included should be flagged - while this may mean that nothing was shipped, it should still be reviewed

Waste streams with actual quantity empty or greater than consented quantity: 0

Transporter EPA IDs

Transporters without an EPA ID should be flagged. Note that the EPA ID may not exist for foreign transporters

3

Transporters without EPA ID: 0

Reduction Statement

Reports with no reduction statement included for review. Reduction statements are only required in even numbered years, for each hazardous waste exported, except for hazardous waste produced by exporters of greater than 100kg but less than 1,000kg in a calendar month, and except for hazardous waste for which information was already provided pursuant to §262.41

Report Year: 2016

Reduction Statements Required

Reduction Effort	Reduction Achievement
Tradebe Treatment and Recycling LLC (Tradebe) is reducing the volume and toxicity of waste brought into our facility by recycling material through our multiple recycling technologies. Our SDS system, which has been in service since 2005, is a closed loop recycling system that utilizes solid waste feedstock to recover petroleum based hydrocarbons. Our distillation column came on line shortly after the SDS and is used to recycle solvent wastes and to produce commercial solvent products. In 2008, Tradebe installed a pot still, further increasing our solvent processing capabilities. In 2009, Tradebe installed a thin film evaporator, a high viscosity distillation system, that Tradebe utilizes to recover many solvent waste streams that have required offsite disposal in the past. Tradebe placed into operation in the fourth quarter of 2015 SDS system further enhancing our recycling capability. Each year, more and more of the material handled by Tradebe is recycled rather than being sent for disposal.	Changes in volumes and toxicity of waste during the year is dependent upon the amount of waste received from hazardous waste generators and shipped to Tradebe Treatment and Recycling LLC for disposal.
